

WSTIMS FOR WINDOWS USERS NEWSLETTER

May 3, 2018

ISSUE 04

VOL. 18

Editor: Jeff Clark

jclarksr94@gmail.com

Programmer: Dave Allen

This newsletter is for you, the user, to inform you of problems that have been sent in from scorers across the nation and the solutions for those problems. We will be sending this out from time to time to keep you informed and assist you in usage of the program. If you have a problem or issue that needs to be addressed send an email to the editor and we will get your problem addressed immediately and keep all of the users informed of the problems/solutions involved.

Update 5.0.0.4 is Available for Downloading

The updated version 5.0.0.4 is now available for download.

Be Sure To Download A New Database To Use This Year

Some of you that have downloaded the 5.0.0.4 update are receiving an error message about a “corrupt database”. This is due to the big changes to the information that is now in the tournament template and the moving on many of the columns in the spreadsheet. You need to go to waterskiresults.com > WSTIMS For Windows File List > click/highlight the waterski.sdf file (last file at bottom of list) and click on “save” in the popup window at the bottom of your screen, to save the new file to your database folder. I still like to rename the file so that it is easy to find, for instance – waterskiJeff18.sdf.

Then you will need to open WSTIMS select > Tools > Set database. Locate the new waterski.sdf file you just downloaded/renamed and highlight it. The program should make the link and you should receive a popup window verifying that the linkup was successful.

Scoring Reminders For 2018 From Richelle Muhlitner, Rules Committee, Chair, oneskimom@aol.com

As the new year starts we have noticed some mistakes in the scoring and divisions of skiers.

Level 10, which is now up and running, is going to take some getting used to. Some skiers might have sent in their entry before qualifying and are signed up in age division instead of Elite. All scorers/registrars should double check to make

sure the skiers are in the correct division. This may mean manually reentering them on the second line of the registration template or into the scoring program.

Also, don't forget that for ALL elite divisions skiers must be qualified to ski there, and they may not elect to ski elite if they are not elite qualified. We want to continue to maintain the high standard of this level so that skiers are proud of their accomplishments.

If there are any skiers who you are not sure of their status and/or you are putting them in manually, please check the registration template, WSTIMS, or USA-WSWS website to confirm Elite Qualifications.

ZBS is allowed in all Classes of tournaments below maximum speed AND in ALL Class C tournaments above maximum speeds. If skiers want their scores that are performed above maximum speed to go onto the IWWF ranking list in a Class L or R tournament, they may choose to ski at those speeds if the international codes of S,4 or L3,4, are used. They may otherwise elect to ski their regular division with a speed above division maximum but be scored at the division maximum speed.

Collegiate Division Codes, Jeff Surdej, President NCWSA
j_surdej@yahoo.com

Regarding scoring for Collegiate tournaments, any skier who is not skiing for a college needs to be scored in AWSA division codes and not CM or CW. Otherwise this could put the colleges at risk while also affecting the ranking list.

Tournaments are in full swing in Florida and it is almost Cinco De Mayo, or margarita time!

Jeff
